Of course we are pleased to have you send us in new subscribers. We keep a record of all new names received from those who are competing for the prize. Why not ask your city friends who visit this section to become subscribers and thus help you to win the prize? This is a very good plan. Three hundred subscribers are needed as one month subscribers in the county. Therefore if you can induce your friend to take the paper for a year get him to take it for 12 months and give the paper a trial.
